Subject- English

Read and write.

# The Magic Shell

One bright  
And sunny day  
On the beach  
I went to play.

Little by little  
With my hand  
In my bucket  
I filled the sand.

Soon it was dark  
There was no light  
On the sand I saw  
Something bright.

Near my foot  
A shell I found  
It was smooth  
Shiny and round!

I picked it up  
And rubbed it well  
A soft voice said,  
'Do you want a magic spell?'

**Subject- Mathematics**

**Subtraction by places**

**Solve the Word Problems**

1.) There are 48 apples in a basket. Bhurashi and Bishwant ate 23 Of them . How many apples are left in the basket?
