## 4-digit Numbers

### Comparison of numbers

#### Classwork - Exercise

1. Let's write the appropriate sign '=', '<' or '>' between these numbers to compare them.

- a) 5 \_\_\_\_ 8                      b) 8 \_\_\_\_ 5  
 c) 21 \_\_\_\_ 12                  d) 12 \_\_\_\_ 21  
 e) 345 \_\_\_\_ 345                f) 435 \_\_\_\_ 435

6 is less than 9 →  $6 < 9$   
 9 is greater than 6 →  $9 > 6$   
 126 is equal to 126 →  $126 = 126$

Now, let's compare 4-digit numbers.

At first, we should compare the digits at the highest place.

2538 < 3892  
 So,  $2538 < 3892$

If the digits at the highest place are equal, then we should compare the digits at the lower places.

4601 > 4385  
 So,  $4601 > 4385$

2. Now, let's put the appropriate sign '=', '<' or '>' in the blanks. Then compare the numbers.

- a)  $2538$                        $3892$                       b)  $3654$                        $3897$                       c)  $8439$                        $8471$   
 So,  $5126$  \_\_\_\_  $4879$                       So,  $3654$  \_\_\_\_  $3897$                       So,  $8439$  \_\_\_\_  $8471$

3. Let's put the appropriate sign '=', '<' or '>' between these numbers.

- a) 3258 \_\_\_\_ 3258                      b) 7120 \_\_\_\_ 6893                      c) 5399 \_\_\_\_ 5712  
 d) 4680 \_\_\_\_ 4675                      e) 9142 \_\_\_\_ 9147                      f) 8216 \_\_\_\_ 7564

### Subject- Science

Answer the following questions.

- Write any two differences between spring season and autumn season.
- Write any two differences between summer season and winter season.
- Write about the climatic condition during spring season.
- Write about the climatic condition during Autumn season.
- Write about the climatic condition during Summer season.
