## Subject- Social Studies

(AN-4) Study the following text and answer the following questions:

### Lesson: Differences between Society and Community

SN	Society	SN	Community
1.	Society is a web of social relationships.	1.	Community consists of group of individuals.
2.	Community Sentiment or a sense of 'we feeling' is not essential in a society.	2.	There can be no community in the absence of community sentiment.
3.	Society is wider; there can be more than one community in a society.	3.	Community is smaller than society. There cannot be more than one society in a community.
4.	Common interests and common objectives are not necessary in society.	4.	In a community, common interests and common objectives are necessary. People in a community live together for achievement of common interests and common objectives.
5.	Society involves both likeness and difference.	5.	Likeness is more important than difference in community.

### **Questions:**

1. Rewrite the given differences between 'Society' and 'Community' in your copy and study it.
2. Look at the following picture and write a short note on why even animals stay together.

3. Give reason: 'Life is easier in community'.

**The End.**
