YOUR DESTINATION FOR 21ST CENTURY SKILLS

Riviera International Academy is an educational institution where an optimal and safe learning environment exists for children. It creates an atmosphere that ensures knowing every student's intellect level and enhances students' ability to learn and encourages them to lead. Students here are enlightened with cultural, social and psychological awakening for their overall personality development that makes them capable, disciplined and responsible citizens. It develops the confident and resourceful individuals who lead productive lives while contributing to their society, their country and the world. So, it has diverse package of educational resources and programs with sound professionals. Small classes, dedicated teachers and personal attention make its education distinct. As such, Riviera has come up in the academic arena with an exclusive vision and a goal-oriented mission.

Vision

Transforming the students into complete citizens to lead the nation by enriching their mind, body and soul.

Teaching 21st Century Skills

- Life and Career Skills
- Learning and Innovation Skills
- Information, Media and Technology Skills

Mission

1. Inculcating 21st century skills in the students to make them able to compete in the global market successfully.
2. Helping them to learn who they are, how they contribute to their communities and how they can become responsible citizens of the country.
3. Making them self-disciplined, self-reliant and self-confident.
4. Instilling in them academic knowledge, technical skills and leadership quality.
5. Helping the students to identify the potential inherent in them, to acquire new knowledge and to transfer their knowledge into skill.

1st in Inter-School Boys' Volleyball Tournament

9th in Inter-school SEE Mathematics Competition

1st in Inter-School Taekwondo Championships

4th in Inter-School Girls' Volleyball Tournament

Riviera Kindergarten covers the classes from PG / Nursery to Upper Kindergarten (U.Kg.). It is duly designed with Montessori teaching-learning system. The classrooms and the settings are child-friendly, educative and knowledge-based. The Kindergarten teachers are trained on child psychology based teaching system which ensures the children's physical, emotional, social and cognitive development. They learn all the four language skills (Reading, Writing, Listening and Speaking) under highly caring and affectionate environment.

Riviera Kindergarten is originated to explore knowledge and imagination, to develop oratory skill, positive attitude, patience and leadership with proper response to the curiosity of the children.

One special Kids' Library and Tiffin Centre and the availability of sports and recreational materials are other features of Riviera Kindergarten.

Riviera BaSE [Basic School Education]

Basic School Education at Riviera covers the classes from Grade One to Grade Eight. The Riviera BaSE is fully handled by highly professional, well trained and experienced teachers. Riviera BaSE practices learners-centered value based education system. The school has adopted the '*putting students first*' philosophy in its teaching-learning prospects. It helps them to explore their potentialities and to transfer the acquired knowledge into skill for achieving the best result. On the other hand, value based education educates children about their moral, social, and cultural values that make them disciplined and responsible. Riviera BaSE is endowed with all the infrastructures and technologies that are used to make students competitive in a contemporary society. It has well furnished classrooms, full-ledged library, well-equipped science lab, computer lab with an access to internet and necessary audiovisual aids for teaching and learning process. Riviera BaSE prepares students to take the challenge for leadership at all spheres of society amidst their contemporaries.

Riviera Secondary School

Secondary School at Riviera covers the classes from Nine to Twelve. Secondary education here makes the students highly competent in pursuing their higher degree education in even the challenging and competitive environment. Riviera instills in them academic knowledge, technical skills and leadership quality.

The selected textbooks, best designed teaching learning system in best-suited and well-furnished classrooms with an easy access to resourceful library, science lab, computer lab and smart class are the factors supporting children to achieve their goals.

Riviera till date has 100 percent success in SLC / SEE examinations with significant number of distinction / A+ achieving students. On account of the international networking with foreign schools, Rivierians are well accepted in different countries of the world.
