

# **RIVIERA INTERNATIONAL ACADEMY**

## **Revision Assignment for Bhadra 26**

### **Class 7, English**

#### **Read the text and do the following activities.**

The radio is one important invention of the modern world. It was invented by an Italian scientist named Marconi in 1902. It is basically small equipment used for listening to programs that are broadcast to the public. It is one of the commonest means of communication as various group of people use it in their own way. One good advantage of the radio is that it can be operated both by batteries and electricity. They are also easy to operate and light to carry.

Radio broadcasts are designed to inform, educate and entertain people. People are informed through news of national and international importance, and through announcements, notices and advertisements.
